Linked Democracy Jan 14 2022 This open access book shows the factors linking information flow, social intelligence, rights management and modelling with epistemic democracy, offering licensed linked data along with information about the rights involved. This model of democracy for the web of data brings new challenges for the social organisation of knowledge, collective innovation, and the coordination of actions. Licensed linked data, licensed linguistic linked data, right expression languages, semantic web regulatory models, electronic institutions, artificial socio-cognitive systems are examples of regulatory and institutional design (regulations by design). The web has been massively populated with both data and services, and semantically structured data, the linked data cloud, facilitates and fosters human-machine interaction. Linked data aims to create ecosystems to make it possible to browse, discover, exploit and reuse data sets for applications. Rights Expression Languages semi-automatically regulate the use and reuse of content.

Painting, Poetry, and the Invention of Tenderness in the Early Roman Empire Feb 15 2022 This book connects the emergence of Latin love elegy and a new, tender style in Roman wall painting.

Nancy Caroline's Emergency Care in the Streets Jun 26 2020 Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also

wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity. Throughout her life, Dr. Caroline brought a sense of excitement, joy, and humor to her work. The American Academy of Orthopaedic Surgeons is proud to continue Dr. Caroline's legacy. Her sense of excitement and humor live on in this text, which is dedicated to her. The Sixth Edition honors Dr. Caroline's work with a clear, fun, understandable writing style for which she was known. Welcome back a familiar training companion to your classroom! Say hello to Sidney Sinus, AV Abe, and a cast of memorable characters and amusing anecdotes. Make learning for your students more fun!

Design, Operation and Evaluation of Mobile

Communications Jul 28 2020 This conference proceeding LNCS 12796 constitutes the thoroughly refereed proceedings of the 2nd International Conference on Design, Operation and Evaluation of Mobile Communications, MOBILE 2021 which was held as part of the 23rd HCI International Conference, HCII 2021 as a virtual event, due to COVID-19, in July 2021. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes were carefully reviewed and selected from 5222 submissions. MOBILE 2021 includes a total of 27 papers; they were organized in topical sections named: Designing, Developing and Evaluating Mobile Interaction Systems and User Experience, Acceptance and Impact of Mobile Communications.

Advances in Usability, User Experience and Assistive

Technology Jul 08 2021 This book focuses on emerging issues in usability, interface design, human-computer interaction, user experience and assistive technology. It highlights research aimed at understanding human interaction with products, services and systems, and focuses on finding effective approaches for

improving user experience. It also discusses key issues in designing and providing assistive devices and services to individuals with disabilities or impairment, to assist mobility, communication, positioning, environmental control and daily living. The book covers modelling as well as innovative design concepts, with a special emphasis on user-centered design, and design for specific populations, particularly the elderly. Virtual reality, digital environments, heuristic evaluation and forms of device interface feedback of (e.g. visual and haptic) are also among the topics covered. Based on the AHFE 2018 Conference on Usability & User Experience and the AHFE 2018 Conference on Human Factors and Assistive Technology, held on July 21-25, 2018, in Orlando, Florida, USA, this book reports on cutting-edge findings, research methods and user-centred evaluation approaches.

Embedded System Design Sep 29 2020 Until the late 1980s, information processing was associated with large mainframe computers and huge tape drives. During the 1990s, this trend shifted toward information processing with personal computers, or PCs. The trend toward miniaturization continues and in the future the majority of information processing systems will be small mobile computers, many of which will be embedded into larger products and interfaced to the physical environment. Hence, these kinds of systems are called embedded systems. Embedded systems together with their physical environment are called cyber-physical systems. Examples include systems such as transportation and fabrication equipment. It is expected that the total market volume of embedded systems will be significantly larger than that of traditional information processing systems such as PCs and mainframes. Embedded systems share a number of common characteristics. For example, they must be dependable, efficient, meet real-time constraints and require customized user interfaces (instead of generic keyboard and mouse interfaces). Therefore, it makes sense to consider common

principles of embedded system design. Embedded System Design starts with an introduction into the area and a survey of specification models and languages for embedded and cyber-physical systems. It provides a brief overview of hardware devices used for such systems and presents the essentials of system software for embedded systems, like real-time operating systems. The book also discusses evaluation and validation techniques for embedded systems. Furthermore, the book presents an overview of techniques for mapping applications to execution platforms. Due to the importance of resource efficiency, the book also contains a selected set of optimization techniques for embedded systems, including special compilation techniques. The book closes with a brief survey on testing. Embedded System Design can be used as a text book for courses on embedded systems and as a source which provides pointers to relevant material in the area for PhD students and teachers. It assumes a basic knowledge of information processing hardware and software. Courseware related to this book is available at

Heartsaver First Aid Student Workbook (International English) Dec 21 2019 Product 15-2849

Crew Resource Management Sep 10 2021 Crew Resource Management: Principles and Practice shows emergency response leaders how to implement CRM skills in their fire stations, in their

ambulances, in their police vehicles, and on the emergency scene. The key features of this program include: Case Studies Engaging and thought-provoking case studies help the reader to plan responses to wide

First Aid, CPR, and AED Standard Mar 24 2020 When an emergency strikes, knowing what to do is critical. That is why the ECSI First Aid, CPR and AED course is invaluable. First Aid, CPR, and AED Standard is the center of an integrated teaching an

The Handbook of International Trade Nov 12 2021 Provides an understanding of the issues involved in developing and managing overseas trade. Aimed at students studying for the Institute of Export professional qualification and practitioners involved in export and international trade, this book provides both 'textbook' information and accessible guidelines for best practice.

A Complete Guide to the Snakes of Southern Africa Aug 09 2021 This detailed and comprehensive guide to the 151 snakes indigenous to southern Africa covers all essential aspects of snake biology and behaviour. Now in its second edition, *A Complete Guide to Snakes of Southern Africa* has been updated, revised and expanded to include at least 11 newly discovered and 30 re-classified species and sub-species. New information based on international scientific research has been included in the species accounts relating to behaviour, identification, reproduction and snake venoms. Species descriptions are now accompanied by full-colour photographs. Simple icons make essential information available at a glance. A separate 'look out for' box assists in quickly identifying species in the field. Chapters on classification and identification, keeping snakes, and the prevention and treatment of snakebite supplement the species accounts. This readable and user-friendly guide will be invaluable to herpetologists, snake collectors, hikers, gardeners, campers and householders, or anyone who may encounter or want to know more about these fascinating and widely misunderstood reptiles.

Love Canal Revisited : Race, Class, and Gender in Environmental Activism Jan 22 2020 Historical snapshots of the Love Canal area -- Gender at Love Canal -- Race at Love Canal -- Class at Love Canal -- Historical implications of gender, race, and class at Love Canal

Good Charts May 18 2022 Dataviz—the new language of business A good visualization can communicate the nature and potential impact of information and ideas more powerfully than any other form of communication. For a long time “dataviz” was left to specialists—data scientists and professional designers. No longer. A new generation of tools and massive amounts of available data make it easy for anyone to create visualizations that communicate ideas far more effectively than generic spreadsheet charts ever could. What’s more, building good charts is quickly becoming a need-to-have skill for managers. If you’re not doing it, other managers are, and they’re getting noticed for it and getting credit for contributing to your company’s success. In *Good Charts*, dataviz maven Scott Berinato provides an essential guide to how visualization works and how to use this new language to impress and persuade. Dataviz today is where spreadsheets and word processors were in the early 1980s—on the cusp of changing how we work. Berinato lays out a system for thinking visually and building better charts through a process of talking, sketching, and prototyping. This book is much more than a set of static rules for making visualizations. It taps into both well-established and cutting-edge research in visual perception and neuroscience, as well as the emerging field of visualization science, to explore why good charts (and bad ones) create “feelings behind our eyes.” Along the way, Berinato also includes many engaging vignettes of dataviz pros, illustrating the ideas in practice. *Good Charts* will help you turn plain, uninspiring charts that merely present information into smart, effective visualizations that powerfully convey ideas.

Practical Healthcare Epidemiology Sep 22 2022 A clear, hands-on outline of best practices for infection prevention that directly improve patient outcomes across the healthcare continuum.

Boy Scouts Handbook Aug 21 2022 A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games.

HBR Guide to Performance Management (HBR Guide Series) Oct 31 2020 Are your employees meeting their goals? Is their work improving over time? Understanding where your employees are succeeding—and falling short—is a pivotal part of ensuring you have the right talent to meet organizational objectives. In order to work with your people and effectively monitor their progress, you need a system in place. The HBR Guide to Performance Management provides a new multi-step, cyclical process to help you keep track of your employees' work, identify where they need to improve, and ensure they're growing with the organization. You'll learn to: Set clear employee goals that align with company objectives Monitor progress and check in regularly Close performance gaps Understand when to use performance analytics Create opportunities for growth, tailored to the individual Overcome and avoid burnout on your team Arm yourself with the advice you need to succeed on the job, with the most trusted brand in business. Packed with how-to essentials from leading experts, the HBR Guides provide smart answers to your most pressing work challenges.

FIRST AID. Jan 02 2021

Pharm Phlash! Aug 29 2020

Boy Scouts of America Wilderness First Aid Manual Feb 27 2023 Recognizing the lack of a national standard for wilderness first aid, The Boy Scouts of America formed a Task Force consisting of wilderness medicine specialists, medical epidemiologists, legal expertise, and educators to develop a curriculum and doctrine for a 16 hour wilderness first aid (WFA) course. Buck Tilton was the lead author of this project. As author

he had to amalgamate the results of the literature research performed by the Task Force and through multiple revisions until this final product was developed. The Task Force is indebted to Buck for his hours of dedication to the project. Persons taking this course will have an appreciation of how wilderness first aid differs from standard, urban first aid. Many readers will want to learn more about this fascinating and critical skill needed by all outdoor travelers. Some will be inspired to continue their education with a wilderness first responder course. This book contains the full doctrine that the Task Force approved. It provides a portable resource for use in the field as well as a text for the WFA course. It will be your introduction to the basic skills and knowledge all wilderness travelers should possess.

Sovereign Immunity Under Pressure Feb 21 2020 This book offers a critical analysis of current challenges and developments of the State immunity regime through three dimensions: it looks at State immunity from a comparative perspective; it discusses the major trends relating to the interplay between State immunity and the protection of human rights as well as counter-terrorism; and it examines the relationship between State immunity and the financial obligations of States. Part I, Sovereign Immunity from a Comparative Perspective: Weak v. Strong Immunity Regimes, deals with the diversity of existing regimes of State immunity at the national level. This part aims to explore different approaches of particular states to sovereign immunity and their general attitude to international law, and attempts to understand why some States favour a weaker State immunity regime by multiplying exceptions or interpreting them broadly, while others continuously support a stronger one and sometimes rely on the doctrine of absolute immunity. Part II, International Customary Law of Sovereign Immunity, Human Rights and Counter-Terrorism, highlights how human rights and counter-terrorism have shaped the law and practice of sovereign immunity. This part specifically discusses the role of national legislators and

judges in the development of international law, emerging conflicts between national constitutional norms and the rules of international law concerning State immunity and human rights, and possible ways of their reconciliation. Part III, Sovereign Immunity of States and their Financial Obligations, contributes to on-going debates related to the mixed and complex nature of States' financial obligations. In this part, authors elaborate on perceptions of the underlying public-private law divide, cross influences in public and private international law and their consequences for State immunity, as well as recent trends relating to immunity from execution.

Women in the New Testament Feb 03 2021 Much of the history of women, in religion as in other fields, is lost because it was overlooked or considered unimportant. It is therefore surprising that so many fragments of women's stories survive in the New Testament texts composed by men. Why did they include so many references to women and why are women, as a group, treated so positively by the male New Testament writers? *Women in the New Testament* shows how the stories of women are an integral part of the Gospel and its meaning for us. It also relays how we can respond to the challenge these women represent, whether we are men trying to understand or women trying to find our voices within the tradition of faith found in the New Testament. Chapter one discusses three women of expectant faith. Chapters two and three deal with women who are changed by Jesus. Chapter four focuses on New Testament women of influence. Chapters five and six show how women disciples spread and gave shape to the gospel message. Chapters are "Women of Expectant Faith," "Women Changed by Jesus," "More Women Changed by Jesus," "Women of Prominence," "Women and Discipleship," and "More Women and Discipleship." Mary Ann Getty-Sullivan, PhD, teaches at St. Vincent College and St. Vincent Seminary, Latrobe, Pennsylvania. She is the author of *First and Second Corinthians from the Collegeville Bible*

Commentary series, author of the God Speaks to Us series of children's books, and editor of the Zacchaeus Studies: New Testament series published by The Liturgical Press. "

Blended Learning: Educational Innovation for Personalized Learning

Apr 24 2020 This book constitutes the refereed proceedings of the 12th International Conference on Blended Learning, ICBL 2019, held in Hradec Kralove, Czech Republic, in July 2019. The 28 papers presented were carefully reviewed and selected from 80 submissions. The papers are organized in topical sections named: personalized and adaptive learning; content development for blended learning; experience in blended learning; analytics and evaluation for blended learning; open educational resources; and pedagogical and psychological issues.

Critical Care Transport Mar 16 2022 Welcome to the new gold standard in critical care transport training. Published in conjunction with the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), Critical Care Transport offers cutting edge content relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, Critical Care Transport thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses, physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Maryland, Baltimore County (UMBC). It covers both ground and flight transport, and meets the objectives of critical care transport certification exams such as the Certified Flight Paramedic (FP-C) exam administered by the Board for Critical Care Transport Paramedic Certification. Content includes information specific to prehospital critical care transport, such as flight physiology, lab analysis, hemodynamic monitoring, and specialized devices such as the intra-aortic balloon pump.

Standard topics such as airway management, trauma, and pharmacology are covered in the context of critical care. Chapters have been authored by leading critical care professionals across the country and represent the most current, state-of-the-art information on management of critical care patients.

The Art of Sustainable Performance Dec 13 2021 This open access book revisits common notions on how to select and recruit the right employees. It reveals that the secret of successful individuals and teams lies in a combination of talent and four important performance indicators, offering an innovative approach that companies can fruitfully adopt. Bas Kodden has studied key performance indicators among over 1,100 executives, senior staff and professionals, including 50 CEOs from leading Dutch companies. His findings put the present recruitment and selection procedures used by many prominent companies in a new light. Moreover, the book not only addresses theory; it also offers a practically applicable model for recruitment, selection and professional development. In closing, the book includes a variety of questionnaires and checklists for HR professionals and executives whose goal is to build sustainable and successful teams and organizations.

Mobile Telecommunication Customer Loyalty in Nigeria: Determining Factors Mar 04 2021 With the increasing competition on the market, customer loyalty has become a decisive factor for long-term business profits. At its high, customer loyalty connotes the high entry barriers the competitor faces when entering the market, and it contributes significantly to a reduction of marketing costs. To attract new customers, companies are required to invest a lot of time and money which can result in uncertainties and risks over longer periods of time. The number of loyal customers as a sign of market share is more significant than the total number of customers. More loyal customers translate to high profits. Loyal customers will continue

to purchase or receive the product or service from the same enterprises, and they will be willing to pay higher prices for the quality products and first-class services, thereby increasing sales revenue. Consequently, the focus of many enterprise managers at this point is on marketing management aspects to improve customer loyalty in order to gain the competitive advantage in the face of fierce competition. The importance of customer loyalty has been identified by many researchers and academics in the past years. This importance is also predominant in the telecommunication industry and, consequently, the Nigerian telecom industry. This book attempts to assess and analyze the variables that influence a mobile phone subscriber's loyalty and how Nigerian service providers can enhance this loyalty. The study is based on a survey that uses the quantitative approach. A structured questionnaire was developed and personally administered to a sample of University of Ilorin students across four major GSM operators in the country. Four hundred (400) respondents were sampled through a stratified random sampling. Out of this, three hundred and forty-eight (348) copies of the questionnaire, constituting an 87% response rate, could be used for the analysis. Of the eleven (11) operational factors that were used to assess loyalty of customers in the Nigeria Mobile Telecoms industry, all variables except Brand Image and Service Centre Quality were found to be capable of influencing customer loyalty and also considered as the most important loyalty variables in the industry. The unavailability of Mobile Number Portability was found to be a prominent factor in tying consumers down to service providers, while the generally low satisfaction with the present state of service delivery in the industry also plays a role. Therefore, the retention which the service providers were able to enjoy can be described as circumstantial. The given recommendations include that the service providers embark upon drives that will reduce dropped calls to a bare minimum, that they improve call quality, and that they develop SMS delivery

standards.

Ambient Ionization Mass Spectrometry Jun 07 2021 Ambient ionization has emerged as one of the hottest and fastest growing topics in mass spectrometry enabling sample analysis with minimal sample preparation. Introducing the subject and explaining the basic concepts and terminology, this book will provide a comprehensive, unique treatise devoted to the subject. Written by acknowledged experts, there are full descriptions on how new ionization techniques work, with an overview of their strengths, weaknesses and applications. This title will bring the reader right up to date, with both applications and theory, and will be suitable as a tutorial text for those starting in the field from a variety of disciplines.

High-Level Synthesis Jun 19 2022 This book presents an excellent collection of contributions addressing different aspects of high-level synthesis from both industry and academia. It includes an overview of available EDA tool solutions and their applicability to design problems.

Student Financial Assistance Programs Apr 29 2023

JRCALC Clinical Guidelines 2019 Apr 17 2022 The Joint Royal Colleges Ambulance Liaison Committee guidelines are the essential resource for paramedics. The 2019 edition of the book has been brought up to date with the latest evidence and developments in clinical practice. JRCALC combines expert advice with practical guidance to help paramedics in their challenging roles with the overall objective of improving patient care. Key updates are: •Resuscitation and cardiac arrest. The pathophysiology of cardiac arrest, checklist use and pulseless electrical activity is discussed extensively within the context of every day out of hospital practice. A new guideline on tracheostomy and laryngectomy is included, alongside clinical skills photographs. •Consent and patient confidentiality. The guideline is brought up to date with the Data Protection Act 2018 following the General Data Protection Regulations. •Mental

health presentation: crisis, distress and disordered behaviour. A reviewed guideline supports the clinician with practical help on the assessment and management of different mental health illnesses. •Major, complex and high risk Incidents. A revision by the National Ambulance Resilience Unit covers poisons, rail incidents and police incapacitants. •New medicines are included: Activated charcoal, duodote and morphine sulfate for end of life care. •Other reviews and updates include: head injury, hyperventilation syndrome, stroke, respiratory illness in children and acute coronary syndrome.

American Red Cross First Aid/CPR/AED Participant's

Manual Oct 11 2021 Rev. ed. of: First aid/CPR/AED for schools and the community. 3rd ed. c2006.

The Law of State Immunity Mar 28 2023 The doctrine of state immunity bars national courts from adjudicating or enforcing claims against foreign states. This updated edition of this book provides a thorough analysis of the doctrine, explores high-profile cases, the UN Convention on the Jurisdictional Immunities of States, and provides comparative coverage of UK and US State practice.

Yearbook of International Organizations Jan 26 2023 Edition for 1983/84- published in 3 vols.: vol. 1, Organization descriptions and index; vol. 2, International organization participation; vol. 3, Global action networks.

Partial Least Squares Structural Equation Modeling (PLS-SEM) Using R

Nov 24 2022 Partial least squares structural equation modeling (PLS-SEM) has become a standard approach for analyzing complex inter-relationships between observed and latent variables. Researchers appreciate the many advantages of PLS-SEM such as the possibility to estimate very complex models and the method's flexibility in terms of data requirements and measurement specification. This practical open access guide provides a step-by-step treatment of the major choices in analyzing PLS path models using R, a free software environment

for statistical computing, which runs on Windows, macOS, and UNIX computer platforms. Adopting the R software's SEMinR package, which brings a friendly syntax to creating and estimating structural equation models, each chapter offers a concise overview of relevant topics and metrics, followed by an in-depth description of a case study. Simple instructions give readers the "how-tos" of using SEMinR to obtain solutions and document their results. Rules of thumb in every chapter provide guidance on best practices in the application and interpretation of PLS-SEM.

Customer Relationship Management May 06 2021 This title presents an holistic view of CRM, arguing that its essence concerns basic business strategy - developing and maintaining long-term, mutually beneficial relationships with strategically significant customers - rather than the operational tools which achieve these aims.

Beloved Brands Jul 20 2022 "Beloved Brands is a book every CMO or would-be CMO should read." Al Ries With *Beloved Brands*, you will learn everything you need to know so you can build a brand that your consumers will love. You will learn how to think strategically, define your brand with a positioning statement and a brand idea, write a brand plan everyone can follow, inspire smart and creative marketing execution, and be able to analyze the performance of your brand through a deep-dive business review. Marketing pros and entrepreneurs, this book is for you. Whether you are a VP, CMO, director, brand manager or just starting your marketing career, I promise you will learn how to realize your full potential. You could be in brand management working for an organization or an owner-operator managing a branded business. *Beloved Brands* provides a toolbox intended to help you every day in your job. Keep it on your desk and refer to it whenever you need to write a brand plan, create a brand idea, develop a creative brief, make advertising decisions or lead a deep-dive business review. You can even pass on the tools to your

team, so they can learn how to deliver the fundamentals needed for your brands. This book is also an excellent resource for marketing professors, who can use it as an in-class textbook to develop future marketers. It will challenge communications agency professionals, who are looking to get better at managing brands, including those who work in advertising, public relations, in-store marketing, digital advertising or event marketing. "Most books on branding are really for the MARCOM crowd. They sound good, but you find it's all fluff when you try to take it from words to actions. THIS BOOK IS DIFFERENT! Graham does a wonderful job laying out the steps in clear language and goes beyond advertising and social media to show how branding relates to all aspects of GENERAL as well as marketing management. Make no mistake: there is a strong theoretical foundation for all he says...but he spares you the buzzwords. Next year my students will all be using this book." Kenneth B. (Ken) Wong, Queen's University If you are an entrepreneur who has a great product and wants to turn it into a brand, you can use this book as a playbook. These tips will help you take full advantage of branding and marketing, and make your brand more powerful and more profitable. You will learn how to think, define, plan, execute and analyze, and I provide every tool you will ever need to run your brand. You will find models and examples for each of the four strategic thinking methods, looking at core strength, competitive, consumer and situational strategies. To define the brand, I will provide a tool for writing a brand positioning statement as well as a consumer profile and a consumer benefits ladder. I have created lists of potential functional and emotional benefits to kickstart your thinking on brand positioning. We explore the step-by-step process to come up with your brand idea and bring it all together with a tool for writing the ideal brand concept. For brand plans, I provide formats for a long-range brand strategy roadmap and the annual brand plan with definitions for each planning element. From there, I show how to build a brand

execution plan that includes the creative brief, innovation process, and sales plan. I provide tools for how to create a brand calendar and specific project plans. To grow your brand, I show how to make smart decisions on execution around creative advertising and media choices. When it comes time for the analytics, I provide all the tools you need to write a deep-dive business review, looking at the marketplace, consumer, channels, competitors and the brand. Write everything so that it is easy to follow and implement for your brand. My promise to help make you smarter so you can realize your full potential.
