John le Carre Feb 21 2020 The definitive biography of the internationally adored author of The Spy Who Came in from the Cold, Tinker Tailor Soldier Spy, and A Perfect Spy—arguably one of the most important and influential writers of the post-World War II period—by the National Book Critics Circle Award-winning biographer Adam Sisman. In this definitive biography—blessed by John le Carré himself—Adam Sisman reveals the man behind the bestselling persona. In John le Carré, Sisman shines a spotlight on David Cornwell, an expert at hiding in plain sight—“born to lying,” he wrote in 2002, “bred to it, trained to it by an industry that lies for a living, practiced in it as a novelist.” Of course, the pseudonym “John le Carré” has helped to keep the public at a distance. Sisman probes

Cornwell's unusual upbringing, abandoned by his mother at the age of only five and raised by his con man father (when not in prison), and explores his background in British intelligence, as well as his struggle to become a writer, and his personal life. Sisman has benefited from unfettered access to le Carré's private archive, talked to the most important people in his life, and interviewed the man himself at length. Who is John le Carré? Intriguing, thorough, and packed with entertaining detail, this biography will be a treat for the legions of le Carré fans.

Thalassaemia: The Biography Jul 08 2021 Thalassaemia is the most common type of genetic disorder in the human population, and one of the first whose genetic basis was established. Written by Sir David Weatherall, an expert in molecular medicine and the founder of the Institute of Molecular Medicine in Oxford, this tells the story of early reports of the disease, historical accounts, the identification of the disease as having an inherited basis, early work on thalassaemia as a disorder of the synthesis of haemoglobin, and from the 1960s with the rise of molecular biology, the study of the condition at the DNA level. The commonality of the disease raised an important evolutionary question: if thalassaemia is a genetic disorder then why hasn't it been selected out? Why does it persist, especially in Mediterranean populations? The great geneticist JBS Haldane suggested a reason - that carriers might be more resistant to malaria. Now that we have much more detailed understanding of the molecular basis of this set of diseases, has Haldane proved to be right? Weatherall shows that Haldane turns out to have been partially right. The book ends with recent improvements in treatment that have transformed patients' lives and a general assessment of how molecular approaches are impacting on medicine. Thalassaemia: the biography is part of the Oxford series, Biographies of Disease, edited by William and Helen Bynum. In each individual volume an expert historian of medicine tells the story of a particular disease or condition throughout history - not only in terms of growing medical understanding of its nature and cure, but also shifting social and cultural attitudes, and changes in the meaning of the name of the disease itself.

The Biography of a New Canadian Family May 18 2022 A
Happy and Informative Present: at the new Université de
Sherbrooke, Pierre had developed a four-month teaching
program for clinical nurses prior to their departure to the
Canadian Far North where they would be in charge of a
Nursing Station. In 1973, a group of them gave me as a
parting gift the French translation of "The Scalpel and the
Sword" by Ted Allen and Sydney Gordon (Toronto, 1952);
the French version was by Jean Pare, 'Docteur Bethune'
(Montreal, 1973). As new Canadians, we thought it odd that
the French version should take 20 years to appear on the
scene. We had been in Canada for 15 years. In 1975,
Pierre's career led him to l'hospital du Sacré-Coeur where
Dr. Bethune worked for over three years (1933-1936), his
first experience in a non-English environment before going
to Spain and China where he died in 1939. He became my
last model. During the last seven years of his life Dr
Bethune was able to adapt in a masterful way to three
completely different important complex situations on three
different continents (January 1936 November 1939). On
the social side, Joan became secretary of the Montreal-
based Norman Bethune Foundation. A year later, Pierre
became its fourth Chairman, eventually becoming
responsible for a professional exchange program between
Montreal and China, working most of the time at the
Bethune International Peace Hospital in Shijiazhuang,
Hebei Province (1989-1994). Joan was responsible for a
TESL program, Pierre for a medical teaching program.
Note: Joan is the note-taker, keeping a daily agenda since***

1960 without interruptions! Pierre took lots of pictures and accumulated written stuff all classified and in sequence, in about fifty tightly packed binders.

The Lighted Valley: The Biography of a Beloved Sister, a Christian Woman in America in the Early 1800s* Mar 24 2020 *The Lighted Valley is a biography of a Christian woman whose piety was revered in her congregation. Spending her final months in considerable pain, she calls upon the Lord to support her departure from the Earth to the next life. Introduced by William Jay, an American jurist and Christian reformer, this book was originally intended for the use of the woman's family - the Boltons were a prominent presence in New York state in the early 19th century. The moving descriptions of the subject's journey to England and her immense belief in the power and justness of the Lord God led to a public release and a positive reception among the American public. Perhaps most affecting of all is the description of the woman's gradual expiry. Her dying wish is to be taken to New York, to see the place where she grew up and lived. Only through the power of prayer and mindfulness in the Lord does she keep enough bodily strength to endure the journey.

Robert Redford* Sep 22 2022 *A national symbol of romance since the 1970s, Redford's stardom has often eclipsed the life and trials of the man himself. In this biography --

written with Redford's personal papers, journals, script notes, correspondence, and hundreds of hours of taped interviews -- Michael Feeney Callan strips away the Hollywood façade, exposing the complicated, surprising man beneath. The life of Robert Redford is a series of contradictions: descended from impoverished East Coast barbers on his father's side and once-wealthy Texans on his mother's side, the young Redford suffered from aimlessness and semi-poverty, dropping out of college and briefly spending time in jail before launching a career in theatre. Redford has contributed more -- and more widely -- to entertainment than most stars of his calibre. As an actor, he's appeared on Broadway and film, with an Oscar-nominated performance in 1973's *The Sting*. As a director, he's earned Oscar nominations for Best Picture and Best Director and has received three Golden Globe nominations for Best Director. He won the Academy Award for Best Director in 1980 for *Ordinary People*. And as a producer of independent films -- including the patronage of his Sundance Institute -- he's worked on films including *All the President's Men* and 2004's *The Motorcycle Diaries*. This is a fascinating exploration of one of our most celebrated and least understood public figures, and an essential read for anyone interested in the rocky road to Hollywood.

Roger Daltrey Sep 10 2021 'Hope I die before I get old', sang Roger Daltrey over forty years ago, but it didn't quite work out like that. The wild and passionate lead singer for supergroup The Who is still very much alive. The premature deaths of fellow group members Keith Moon and John Entwistle leaves Daltrey and Pete Townshend as the only survivors of the legendary band. Roger Daltrey's life is extraordinary from start to finish: he was expelled from school and written off as a violent thug - before he made his first guitar out of a block of wood, and music and The Who became his salvation. For many years he was the voice of a generation, strutting bare-chested on stage, swinging the mic around like a lariat at The Who's dynamic

concerts. Drawing on interviews with Daltrey himself, as well as his friends and fellow musicians, this is the most complete and revealing biography of one of rock's most powerful personalities.

The Biography of Harriet Tubman Feb 03 2021 As her biographer Sarah H. Bradford mentions, Harriet Tubman is at par with biggest names like Jeanne D'Arc, Grace Darling, and Florence Nightingale in terms of her resilience, courage and do-or-die dedication in liberating her people from the bondages of slavery. Tubman who was herself born into slavery in Maryland in 1822 took over the responsibility of helping and guiding other slaves to freedom after her own escape to Philadelphia in 1849. Traveling by night and in extreme secrecy, Tubman "never lost a passenger". When the Civil War began, Tubman worked for the Union Army, first as a cook and nurse, and then as an armed scout and spy. She was the first woman to lead an armed expedition in the war and to guide the raid at Combahee Ferry, which liberated more than 700 slaves. Excerpt: "The whip was in sight on the mantel-piece, as a reminder of what was to be expected if the work was not done well. Harriet fixed the furniture as she was told to do, and swept with all her strength, raising a tremendous dust. The moment she had finished sweeping, she took her dusting cloth, and wiped everything "so you could see your face in 'em, de shone so," in haste to go and set the table for breakfast, and do her other work. The dust which she had set flying only settled down again on chairs, tables, and the piano. "Miss Susan" came in and looked around...." (Scenes in the Life of Harriet Tubman) Sarah H. Bradford (1818-1912) was an American writer, historian and one of the first American women writers to specialize in children's literature, predating better-known writers such as Louisa May Alcott. Bradford was also a very close friend of Tubman and a contemporary of Harriet Beecher Stowe, the author of Uncle Tom's Cabin.

Paris Jun 07 2021 'Paris is the World, the rest of the Earth is nothing but its suburbs' - Marivaux In this intelligently-written and supremely entertaining new history, Colin Jones seeks to give a sense of the city of Paris as it was lived in and experienced over time. The focal point of generation upon generation of admirers and detractors, a source of attraction or repulsion even for those who have never been there, Paris has witnessed more extraordinary events than any other major city. No spot on earth has been more walked around, written about, discussed, painted and photographed. With an eye for the revealing, startling and (sometimes) horrible detail, Colin Jones takes the reader from Roman Paris to the present, recreating the ups and downs in the history of the city and its inhabitants. Attentive to both the urban environment and to the experience of those who lived within it, PARIS: BIOGRAPHY OF A CITY will be hugely enjoyed by habitual Paris obsessives, by first-time visitors, and by those who know the city only by repute.

A Biography of the Pixel May 06 2021 The pixel as the organizing principle of all pictures, from cave paintings to Toy Story. The Great Digital Convergence of all media types into one universal digital medium occurred, with little fanfare, at the recent turn of the millennium. The bit became the universal medium, and the pixel--a particular packaging of bits--conquered the world. Henceforward, nearly every picture in the world would be composed of pixels--cell phone pictures, app interfaces, Mars Rover transmissions, book illustrations, videogames. In A Biography of the Pixel, Pixar cofounder Alvy Ray Smith argues that the pixel is the organizing principle of most modern media, and he presents a few simple but profound ideas that unify the dazzling varieties of digital image making. Smith's story of the pixel's development begins with Fourier waves, proceeds through Turing machines, and ends with the first digital movies from Pixar, DreamWorks, and Blue Sky. Today, almost all the pictures we encounter are digital--mediated by the pixel and irretrievably separated from their media; museums and kindergartens are two of the last outposts of the analog. Smith explains, engagingly and accessibly, how pictures composed of invisible stuff become visible--that is, how digital pixels convert to analog display elements. Taking the special case of digital movies to represent all of Digital Light (his term for pictures constructed of pixels), and drawing on his decades of work in the field, Smith approaches his subject from multiple angles--art, technology, entertainment, business, and history. A Biography of the Pixel is essential reading for anyone who has watched a video on a cell phone, played a videogame, or seen a movie. 400 pages of annotations, prepared by the author and available online, provide an invaluable resource for readers.

Michael Tippett Apr 05 2021 'A delight to read' Philip Pullman 'Essential reading ... a genuine landmark

publication' Tom Service A BBC Radio 4 'Book of the Week' The music of the British composer Michael Tippett - including the oratorio A Child of Our Time, five operas, and four symphonies - is among the most visionary of the twentieth century. But little has been written about his extraordinary life. In this long-awaited first biography, Oliver Soden weaves a century-spanning narrative of epic scope and penetrating insight. His achievement is to have enriched our understanding not only of Tippett but of the twentieth century. Figures such as T.S. Eliot, E.M. Forster, Barbara Hepworth, and W.H. Auden jostle in the cast list. An Edwardian world of gaslight and empire cedes to turmoil and warfare and his operas' game-changing attitudes to gay and civil rights, against a backdrop of the Cold War and the Space Race. The result is a landmark in the study of twentieth-century culture, simultaneously an astonishing feat of scholarship and a story as enthralling as in any great novel.

Colin Firth Jan 22 2020 From the moment Colin Firth took on the role of Mr Darcy in the 1995 BBC adaptation of *Pride and Prejudice*, emerging from the lake in 'that scene', he was set on a path from sex symbol to national treasure and Hollywood star. With roles ranging from Hugh Grant's love rival in *Bridget Jones* to an Oscar-nominated turn as a gay university professor in *A Single Man*, Firth's skills as a versatile actor have known no bounds. Yet, it was his recent portrayal of George VI in the 2011 film *The King's Speech* that has elevated him to Hollywood royalty, bagging him numerous awards, including the much coveted Oscar for Best Actor. However, it is not only his assumed roles, but the man himself who has captured the hearts of audiences the world over. This first ever biography also reveals: his early life in Nigeria; the secrets of his escape to Canada with actress Meg Tilly, the birth of their first son and his heartbreak as the relationship floundered; the passionate affair with *Pride and Prejudice* co-star Jennifer Ehle; and his whirlwind romance with his Italian wife, Livia. Fascinating, revelatory and suffused with Firth's own dry wit, this is a must-read book on the man of the moment.

Rowan's Rule Apr 17 2022 A fascinating, fair-minded

depiction of Archbishop Rowan Williams. /Rowan Williams is a complex and controversial figure. Widely revered for his personal qualities, he is also an intellectual giant who towers over almost all his predecessors as Archbishop of Canterbury. Among other achievements, he has trounced the atheist Richard Dawkins, and published over twenty well-regarded books, including several volumes of poetry and a major study of Dostoevsky. / Yet he is also one of the most reviled church leaders in modern history. Long before facing calls to step down after his lecture on sharia law in early 2008, he had been accused of heresy on account of his pro-gay views. He has disappointed many of his own supporters as well. So how has high office changed Rowan Williams? Has he been bullied and manipulated? Or is he perhaps playing a long game, obliged to rate church unity above the pursuit of his own vision at a time when the Anglican Communion has never looked more unstable? / Rupert Shortt, already the author of an acclaimed introduction to the Archbishop's thought, offers answers to these and other questions in this authoritative biography. He explores how the events of the Archbishop's remarkable life have shaped his beliefs and practices today. Of particular interest is the riveting account of Williams's experience near the World Trade Center towers on the morning of September 11, 2001. Written with Williams's cooperation, Rowan's Rule not only elucidates his ideas but gives a compelling portrait of a private and in some ways surprisingly vulnerable man.

Thomas Attwood Dec 25 2022 In addition to his political activities, Attwood laid claim to competence as an economist, based on his experience in banking and his observation of industrial practices in Birmingham. He focused most of his attention on the gold standard and its inhibitory effect on the growth of the economy. Long before the development of modern schools of economic theory, Attwood sought the regulation of business through control of the money supply. He was unsuccessful in his challenge to the Ricardian school, which promised stability through a gold based economy, and died disillusioned. Birmingham became identified with his brand of economic theory and a succession of economists followed his lead into the national arena. Through his study of Attwood's career and the development of his philosophy, David Moss reveals the impact of industrialism on the individual and society.

Changed in a Moment Mar 04 2021 The POWER OF LOVE, "From the Well of Life," is a book written to forever change and challenge us to get it right. We were created out of love and we are God's expression of His love for us. "From the Well of Life," simply means, it was written from life experiences. I hope that you can relate to some of the poetry that has been written. Because we are here on earth, love not hate should be the ruler of the day. The Bible tells us we are to God first, and then we are to love our

neighbors as ourselves. If we learn to love God first, we can experience some of the treasures He has planned for us here on earth. However, if we allow hate to rule our lives, the consequences can be quite different. Remember, God has more in-store for us than we can ever imagine if we learn to put Him first. However, because God created us and instilled in us the gift of choice, we must choose to love to be in our lives. I hope this book inspires you to do just that.
