*General Science 1: Survey of Earth and Sky (Teacher Guide) Mar 25 2020* Four titles from the best-selling *Wonders of Creation Series* are combined for a full year of study. The focus of the course delves into oceans, astronomy, weather, and mineral, all helping the student form a solid, biblical worldview. Combined with the teacher guide, you will have a detailed calendar for each week of study, reproducible worksheets, quizzes and tests, and answers keys to help grade all assignments. *General Science I Course Description* This is the suggested course sequence that allows two core areas of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student; materials within each semester are independent of one another to allow flexibility. *Quarter 1: Ocean* The oceans may well be Earth's final frontier. These dark and sometimes mysterious waters cover 71 percent of the surface area of the globe and have yet to be fully explored. Under the waves, a watery world of frail splendor, foreboding creatures, vast mountains, and sights beyond imagination awaits. Now this powerful resource has been developed for three educational levels! Learning about the oceans and their hidden worlds can be exciting and rewarding — the abundance and diversity of life, the wealth of resources, the latest discoveries, and the simple mysteries that have intrigued explorers and scientists for centuries. A better understanding of our oceans ensures careful stewardship of their grandeur and beauty for future generations, and leads to a deeper respect for the delicate balance of life on that God created on planet Earth. *Quarter 2: Astronomy* The universe is an amazing declaration of the glory and power of God! Beautiful and breathtaking in its scale, the vast expanse of the universe is one that we struggle to study, understand, or even comprehend in terms of its purpose and size. Now take an incredible look at the mysteries and marvels of space in *The New Astronomy Book!* If you watch the stars at night, you will see how they change. This speaks to the enormity and intricacy of design in the universe. While the stars appear timeless, they instead reflect an all-powerful Creator who speaks of them in the Bible. Many ancient pagan cultures taught that the changing stars caused the seasons to change, but unlike these pagan teachings, the Book of Job gives credit to God for both changing stars and seasons (Job 38:31-33). When Job looked at Orion, he saw about what we see today, even though he may have lived as much as 4,000 years ago. *Quarter 3: Weather* From the practical to the pretty amazing, this book gives essential details into understanding what weather is, how it works, and how other forces that impact on it. Learn why storm chasers and hurricane hunters do what they do and how they are helping to solve storm connected mysteries. Discover what makes winter storms both beautiful and deadly, as well as what is behind weather phenomena like St. Elmo's Fire. Find important information on climate history and answers to the modern questions of supposed climate change. Get safety tips for preventing dangerous weather related injuries like those from lightning strikes, uncover why thunderstorms form, as well as what we know about the mechanics of a tornado and other extreme weather examples like flash floods, hurricanes and more. A fresh and compelling look at wild and awesome examples of weather in this revised and updated book in the *Wonders of Creation series!* *Quarter 4: Mineral* Minerals are a gift of God's grace. Every day we touch them, seeing the diamond in an engagement ring or a copper chain with a cross on it. Minerals are touched on in video games like *Minecraft®* and *Mineral Valley™*, making them more a part of our daily experience. Salt, one vital mineral, helps maintain the fluid in our blood cells and is used to transmit information in our nerves and muscles. Also, Jesus told his followers that we are the salt of the earth (Matthew 5:13), something thus needed for health and flavor. Here is a God-honoring book that reveals the first mention of minerals in the Bible, symbolic usages, their current values in culture and society, and their mention in heaven.

*Perfect Genius NCERT Science & Social Science Worksheets for Class 4 (based on Bloom's taxonomy) 2nd Edition Sep 11 2021*

These high-interest lessons and worksheets get students actively involved in learning—even students who are poorly motivated, learning disabled, or who lack English proficiency. The lessons are written so you can easily accommodate your students' various learning styles

whether it's visual, auditory, and tactile. Each lesson helps students make connections between new material and concepts they're already familiar with. The book features 11 units, covering all the body's systems-such as circulatory, digestive, and immune systems, and offers a detailed look at cells, bones, muscles, and more.
