Blueprint Dec 13 2021 A top behavioral geneticist makes the case that DNA inherited from our parents at the moment of conception can predict our psychological strengths and weaknesses. In *Blueprint*, behavioral geneticist Robert Plomin describes how the DNA revolution has made DNA personal by giving us the power to predict our psychological strengths and weaknesses from birth. A century of genetic research shows that DNA differences inherited from our parents are the consistent life-long sources of our psychological individuality—the blueprint that makes us who we are. This, says Plomin, is a game changer. Plomin has been working on these issues for almost fifty years, conducting longitudinal studies of twins and adoptees. He reports that genetics explains more of the psychological differences among people than all other factors combined. Genetics accounts for fifty percent of psychological differences—not just mental health and school achievement but all psychological traits, from personality to intellectual abilities. Nature, not nurture is what makes us who we are. Plomin explores the implications of this, drawing some provocative conclusions—among them that parenting styles don't really affect children's outcomes once genetics is taken into effect. Neither tiger mothers nor attachment parenting affects children's ability to get into Harvard. After describing why DNA matters, Plomin explains what DNA does, offering readers a unique insider's view of the exciting synergies that came from combining genetics and psychology.

Mastering Your Scenes Mar 16 2022 This book was written with one main purpose, to help give authors and writers a creative boost in their scene writing and toss writers block into the oblivion of the abyss. In order to accomplish this each chapter is written in a workbook like format so that the steps provided can easily be implemented after they are explained. For each element of scene writing that is presented J.A. Cox explains the How, Why and When of its use along with his own description so that the information is easy to assimilate. He provides copious examples from his own writing of these elements in action as well as from shows and movies. Here are the elements that you will be learning about: Sketching Location Time Characters Perspective Resistance Objective His purpose is not to force some new-fangled way of writing but to help you realize things that you are likely not seeing as you struggle to come up with ideas to prime that creative pump. He is persuaded that as you make your way through these pages and consider these elements that you will end up in a state where it is difficult to shut down the tsunami of ideas that will come your way. Last but not least, J.A. Cox provides a completed outline format that can be used over and over for every scene you write to keep that creative pump primed. Therefore, you will no longer have to fuss over figuring what prompts or hooks to use to start that chapter as it will come to you as you outline your scenes from the various questions he provides for you to ask with each element. It is his aim to revolutionize the way you look at your scenes in the future.

Blueprint for a Book Sep 22 2022 How to write a novel in the most efficient way by tackling the hardest part before you start to write, from top book coach Jennie Nash "This process makes me want to write, and it makes what I'm writing better. I read it before every draft. It's that good." -KJ Dell'Antonia, New York Times bestselling author of *The Chicken Sisters* Whether you're writing your first novel or your tenth, there is a temptation to pin it to the page before it disappears. It's such a brilliant idea and you can see the whole thing shimmering in your mind, just out of reach. Maybe you do some work on character development and plotting, but you're a racehorse at the gate, ready to run, ready to write. This book is an argument to stop and define the foundational elements of your story before you keep writing - which means understanding your motivation as a writer, considering your reader's expectations, and making sure your story has a solid structure that will hold up inside and out from beginning to end. This clarity is what gives a novel its power and a writer their confidence. Jennie Nash is the creator of the Book Coach Certification program at Author Accelerator and has taught hundreds of book coaches and thousands of novelists how to use the Blueprint for a Book system-and the Inside Outline at the heart of it - to help them produce their best work in the most efficient way. "Jennie Nash turned me into a plotter and

changed the way I think about approaching any new project. I'm an Inside Outside outline fan for life!" -Alison Hammer, author of You and Me and Us and Little Pieces of Me "If you are about to start writing or revising your novel - hold up! You need this book before putting fingers to keyboard. It's a step-by-step design-your-novel manual that encapsulates the most important aspect of great story-telling: how to reach deep into your writerly heart and into the heart of the story you want to bring to life." - Janet Fox, author of The Artifact Hunters "I will sing the praises of the Inside Outline forever. It's f*ing genius." -Carla Naumburg, author of How to Stop Losing Your Sh*t With Your Kids "The Inside Outline is making writing easier. I can focus more on the writing rather than discovering what the scene is about when I'm creating it. Why isn't every writer using it? Instead, people are plonking down good money to be told ten key steps in writing dialogue or setting a scene. I'm so grateful I'm no longer one of them." - Kate Kimball, first time novelist
