*Improv Paper Piecing Mar 19 2022 Paper piecing blocks means they stand alone, mixed with other stand-alone style blocks in a quilt. Rarely are paper pieced designs repeated with other blocks to create a distinctly modern, secondary pattern that appears to be unrestrained. But Amy's paper-pieced patterns and 9 quilt designs combine both the precision of paper piecing and a spontaneous appeal. Design opportunities are opened through the repetition of paper-pieced blocks. This creates irresistible, modern quilts with precise--yet improvisational--flavor. Amy's patterns easily appeal to both the modern and the new traditional quilt maker alike.*

*The Salem Witch Hunt Aug 12 2021* The Salem witch trials stand as one of the infamous moments in colonial American history. More than 150 people -- primarily women -- from 24 communities were charged with witchcraft; 19 were hanged and others died in prison. This second edition continues to explore the beliefs, fears, and historical context that

fueled the witch panic of 1692. In his revised introduction, Richard Godbeer offers coverage of the convulsive ergotism thesis advanced in the 1970s and a discussion of new scholarship on men who were accused of witchcraft for explicitly gendered reasons. The documents in this volume illuminate how the Puritans' worldview led them to seek a supernatural explanation for the problems vexing their community. Presented as case studies, the carefully chosen records from several specific trials offer a clear picture of the gender norms and social tensions that underlie the witchcraft accusations. New to this edition are records from the trial of Samuel Wardwell, a fortune-teller or "cunning man" whose apparent expertise made him vulnerable to suspicions of witchcraft. The book's final documents cover recantations of confessions, the aftermath of the witch hunt, and statements of regret. A chronology of the witchcraft crisis, questions for consideration, and a selected bibliography round out the book's pedagogical support.

The Business of Culture Feb 24 2020 The Business of Culture examines the rise of Chinese "cultural entrepreneurs," businesspeople who risked financial well-being and reputation by investing in multiple cultural enterprises in the late nineteenth and twentieth centuries. Rich in biographical detail, the interlinked case studies featured in this volume introduce three distinct archetypes: the cultural personality, the tycoon, and the collective enterprise. These portraits reveal how rapidly evolving technologies and growing transregional ties created fertile conditions for business success in the cultural sphere. *Travel, Writing and the Media* Apr 07 2021 The nexus between travel, writing and media in the contemporary world is dense: travel practice is increasingly interwoven with media; representations in old and new media are co-present and converge. Digitisation has had a

profound impact on the practice and mediation of travel, but this volume aims to show that travel and its representation have always been enlaced with media. With contributions by experts in literary and cultural studies, journalism studies and informatics, the book takes a multi- and interdisciplinary approach and covers a wide range of media, from the hand-crafted album to social media. It illustrates how current transformations invite us to revisit earlier periods of travel writing and their media environments, and to explore the ways in which contemporary forms of mediation are prefigured by earlier practices and forms. The book addresses readers interested in travel writing, travel studies and cultural studies.

Base Realignments and Closures Oct 02 2020  
The Defense Secretary's Commission on Base Realignment and Closure was chartered on May 3, 1988 to recommend military installations within the United States, its commonwealths, territories, and possessions for realignment and closure. The Congress and the President subsequently endorsed this approach through legislation that removed some of the previous impediments to successful base-closure actions. This Commission's recommendations for closure and realignment affect 145 installations. Of this number, 86 are to be

closed fully, five are to be closed in part, and 54 will experience a change, either an increase or a decrease, as units and activities are relocated. The Commission also makes several additional recommendations that address potential problems in implementing the Commission's closure and realignment recommendations and certain other matters that the Commission has discovered during its review of the military base structure.
