**????:???** The initial ‘idea’ for the book emerged during the seminar Sharing of Innovative Pedagogical Practices that occurred at the University of Coimbra (Portugal) in 2018. Like all ‘good ideas’, this one originated in a conversation between colleagues from the University of Coimbra and the University of West London in the United Kingdom. The ‘idea’ of this book was to move away from sharing experiences related to teaching and learning in higher education in just one or two countries, but instead to organise a more European view about the policy, research and teaching practices that are shaping the way our students learn, academics teach and do research. We have a total of 16 chapters from academics in Portugal, the United Kingdom, Ireland, Sweden, the Netherlands, Spain, Italy, and the Czech Republic. The book is organised in four interrelated themes: (1) policy and quality; (2) professionalisation of teaching and academic development; (3) research and teaching nexus; and (4) pedagogy and practice. Enjoy reading the book!
