Vincent van Gogh's letters to his brother Theo, other family members and friends such as fellow artists Gauguin and Émile Bernard are renowned for being the most passionate body of correspondence ever written by a painter. Giving a wealth of insight into the artist's character and state of mind, these three volumes contain all the existing letters with reproductions of the drawings with which they were illustrated. Most of the 650 letters were written between 1872 when Vincent was nineteen, and the year he died, 1890. All have been annotated and translated with the help of Theo's son. The reproductions include self-portraits and sketches, and in addition there are introductory essays and a memoir of the artist written in 1913 by Theo's widow. In ancient Athens, the great philosopher applies logic to a lethal crime—in the “eminently enjoyable” first novel in a historical mystery series (Colin Dexter, author of the Inspector Morse Mysteries). Young Stephanos is desperate to save his family's honor by proving in the Athenian court that his exiled cousin is not guilty of shooting an arrow into a prominent patrician. For help, he turns to his old teacher—the cunning and clever thinker known as Aristotle. It will all lead up to a tense public trial in which Stephanos must draw on the rhetorical skills he's learned from his eccentric, brilliant mentor, in this novel filled with suspense, humor, and historical detail—the first in a series of “witty, elegant whodunits” (Times Literary Supplement). “[An] unusually authentic Ancient-Greece murder tale.”—Kirkus Reviews “Doody brings the Athens of 322 BC to life with skill and verve...wonderfully plotted.”—Publishers Weekly Murder and mayhem may seem like unreasonable company for Aristotle, one of the founding minds of Western philosophy. But in the skilled hands of Margaret Doody, the pairing could not be more logical. With her Aristotle Detective novels, Margaret Doody brings a Holmesian hero to the bloodied streets of ancient Greece, trading the pipe and deerstalker of Sherlock for the woolen chiton and sandals of Aristotle. Replete with suspense, historical detail, and humor, and complemented by an ever-growing cast of characters and vivid descriptions of the ancient world, Doody's mysteries are as much lively takes on the figures and forms of the classics as they are classic whodunits in their own right. Stephanos and his teacher return in Aristotle and Poetic Justice, when a party given by wealthy Athenian silver miners leads to kidnapping, a ghost, a road trip to Delphi, and, of course, murder. More historical fiction than a detective novel, this sequel runs the gamut of Athenian social customs, myth, politics, and economics—from the trials of virgin love to the dangers of silver lust. Looks at such key trends as a power shift to the East, global connectivity, the technology of genetics, the growth of the Internet, and environmental concerns to discuss the changes in human life by the year 2050. A collection of essays examining the nature and philosophy of naturalism. These essays also touch upon the aspirations of the human spirit, including its pursuit of freedom, beauty, and creating a better civilization. Murder has jarred London's elite. Once again, the local magistrate turns to Sebastian St. Cyr, Viscount

Devlin, for help. Moving from the gritty world of London's docks to the drawing rooms of Mayfair, Sebastian confronts his most puzzling—and disturbing—case yet. In this short, lucid, rich book Michael Dummett sets out his views about some of the deepest questions in philosophy. The fundamental question of metaphysics is: what does reality consist of? To answer this, Dummett holds, it is necessary to say what kinds of fact obtain, and what constitutes their holding good. Facts correspond with true propositions, or true thoughts: when we know which propositions, or thoughts, in general, are true, we shall know what facts there are in general. Dummett considers the relation between metaphysics, our conception of the constitution of reality, and semantics, the theory that explains how statements are determined as true or as false in terms of their composition out of their constituent expressions. He investigates the two concepts on which the bridge that connects semantics to metaphysics rests, meaning and truth, and the role of justification in a theory of meaning. He then examines the special semantic and metaphysical issues that arise with relation to time and tense. On this basis Dummett puts forward his controversial view of reality as indeterminate: there may be no fact of the matter about whether an object does or does not have a given property. We have to relinquish our deep-held realist understanding of language, the illusion that we know what it is for any proposition that we can frame to be true independently of our having any means of recognizing its truth, and accept that truth depends on our capacity to apprehend it. Dummett concludes with a chapter about God. Focus on Grammar helps students understand and practice English grammar through contextualized listening, speaking, reading, and writing activities. He transformed Ryanair from a loss-making joke of an Irish carrier into one of the most valuable airlines in the world, and in the process he has revolutionized the very nature of commercial aviation. In this, the first biography of O'Leary, Alan Ruddock portrays the man in three dimensions and examines the business miracle - often talked about but poorly understood - that O'Leary has wrought. 'Ruddock's fast-paced retelling of Ryanair's rise and rise confirms O'Leary's insistence that his success has little to do with the management maxims of business gurus and everything to do with graft and ruthless attention to detail' Observer 'Probably the definitive Ryanair story ... a good read' Sunday Independent 'The fullest and most accurate picture of O'Leary to date' Irish Daily Mail 'Unlike previous books which simply chart the growth of the airline, this one is bound to get under O'Leary's skin because it reveals a great deal about his hugely driven character' Irish Independent 'Ruddock is good on the flavour of the man, a bundle of energy whose two favourite words start with an F and an S (they aren't flower and sugar)' Irish Examiner
